

Hometown MTm (Medication Therapy Management)

March 15, 2019

Have you received a phone call from a pharmacist offering MTm (short for medication therapy management) services lately? Did you know this service is part of your State of Montana Benefit Plan (State Plan) benefits designed to help employees and their dependents stay healthier through better management of their medications and health conditions?

The Hometown MTm program is offered through a groundbreaking partnership between the State Plan, Montana Family Pharmacies (a group of 60+ independent community pharmacies), and the University of Montana School of Pharmacy.

Below are some frequently asked questions and answers regarding the MTm program:

Q: Who is calling me?

A: As part of this program, you may be contacted by pharmacists (and sometimes pharmacy students) who are specially trained to provide MTm services.

Q: Why are they calling me?

A: You may be called if a program pharmacist has identified a potential medication-related problem in your medication regimen (such as a possible drug interaction). A pharmacist might also contact you to schedule a Comprehensive Medication Review (a more thorough medication review aimed at helping members with particularly complex medication regimens).

Q: What is the purpose?

A: Program pharmacists aim to work with you to ensure you get the most benefit (and least risk) out of your medications. For example, they might help you identify ways to reduce your copayments, encourage you to take your medications more regularly, or suggest changes that may improve effectiveness or reduce side effects.

Q: How can I get more information?

A: Contact Montana Family Pharmacies at (406) 298-4140 or info@montanafamilypharmacies.com for more information about medication therapy management services. Please visit <http://montanafamilypharmacies.com/> for more information about Montana Family Pharmacies and to find a pharmacy near you.

Hometown MTm Brochure
