

Flu Shot Appointments Available Now! Appointments Begin October 1, 2018.

September 12, 2018

Flu season is coming! We encourage you to make a flu shot appointment through the Montana Health Centers or at one of the On-Site Flu Shot Clinics below.* This is the most cost-effective way for you to get your flu shot, but appointments fill up fast, so don't delay!

Please be aware, flu shot appointments at the Montana Health Centers are not available until October 1, but you can make your appointments now.

Flu Shots from the Montana Health Centers: Two Options

1. **Make an appointment at a Montana Health Center:** Anaconda, Billings, Butte, Helena, and Missoula. Limited Saturday appointments are available in Helena. Flu shots at the Montana Health Centers are available to plan members 4 years old and up.
2. **Make an appointment at an On-Site Flu Shot Clinic.** See the list of On-Site Flu Shot Clinics below. Flu shots at the On-Site Clinics are available to Plan Members the age of 18 years old and up.

Appointments are Required!

- 1) Log into [CareHere](#) or call the Montana Health Centers at (855) 200-6822.
- 2) Click "Appointments" on the left hand menu.
- 3) Select "Schedule Appointment" under "Nurse, X-Ray & Labs."
- 4) Select the appropriate date range, click "Flu shot" under "What," then click "Get Appointments."
- 5) Follow the on-screen instructions to make your appointment. Any questions about making an appointment, please call the Montana Health Centers at **(855) 200-6822**.

If you have an appointment already scheduled at the Montana Health Center for other medical needs, you may also ask for a flu shot when checking in for that service. Do NOT schedule an appointment for a flu shot with a Medical provider unless you have other medical needs that you need to see a provider for.

On-Site Flu Shot Schedule – Appointments Required!
