CHILDREN'S RESOURCES

Interactive games, stories, coloring pages, fun facts and health tips help kids understand what's going on in their mouths and how to keep their smiles healthy. From a matching game with healthy foods to a tooth-friendly word search, children will have fun learning about dental care.

PARENT AND TEACHER RESOURCES

Health education materials help parents and teachers learn the ins-and-outs of dental care, including how to talk to children about oral health. Teachers can incorporate dental health materials into lesson plans, and parents can lead children through an interactive quiz to assess cavity risk. Visit mysmilekids.com to get started today!
