Payment of benefits under this BCBS MCO Plan will be made on the basis of your submission of required information to the Blue Cross Blue Shield of Montana Health Plan. You must also be eligible for benefits as described in the main Employee Benefit Summary Plan Description.

SECTION 1: OBTAINING BENEFITS

1.1 STEPS TO TAKE IN ADVANCE OF RECEIVING SERVICES

1. Make sure you have a current identification card from the health plan. Make sure it contains the correct identification number, name(s), dependent coverage information, and date(s) of birth. If you need services before you receive your card or have lost it, ask your provider to verify your coverage by calling the health plan or the employer at the numbers on the cover page. Replacement cards can also be ordered by calling the health plan.

2. Make sure there is an available BCBSMT network (in-network) providers in your area that you and any enrolled dependents feel comfortable using for your typical health care needs. You may also want to determine if there are specialists in the BCBSMT network that will meet your (and member dependents’) medical needs.

For a full list of in-network providers and updates list, see the BCBSMT website at www.bluecrossmontana.com. The BCBSMT website allows you to search for network providers statewide or in your area. Specify the employer’s MCO plan, if listed, or “Blue Choice” as the plan to access the right network. For home health, IV therapy, hospice, durable medical equipment prosthetics/orthopedics and home infusion providers specify “Blue Cross Blue Shield of Montana.” For these specialties, BCBS participating providers act as in-network providers.

3. In advance of receiving services, know and optimize your benefits:

a. Obtain pre-certification for inpatient hospital stays. All non-emergency inpatient hospital stays should be pre-certified (prior to admission) by calling the health plan to make sure the stay meets medical necessity requirements for inpatient benefits. All emergency admissions should be certified within 24 hours after admission, or at the first opportunity, to make sure any continued stay meets medical necessity criteria for inpatient benefits. The hospital will typically make this call to assure payment, but since you are responsible for all charges that are not benefits of the BCBSMT MCO plan, you should call as well for your own protection. You should also call to confirm that the hospital is an in-network facility if you are unsure. Pre-certification is especially critical for any inpatient facility admissions/stays for: transplants, treatment of mental illness, and rehabilitation services or recovery, as stated for these services in Section 2.

b. Determine if you need prior authorization by the health plan for specific proposed medical procedures, equipment, or supplies. You must call the health plan and obtain prior authorization to receive benefits for:
   1) durable medical equipment expenses in excess of $1,000.
   2) infertility treatment;
   3) obesity management (nonsurgical)

c. Identify services for which prior authorization is recommended. These include, but are not limited to the following (retrospective review will be done if services are not prior authorized):
   1) cardiac and/or pulmonary rehabilitation;
   2) chronic pain programs;
   3) home health services;
   4) hospice;
   5) Magnetic Resonance Imaging (MRI), Computer Axis Tomography (CAT scan, CT scan), and Positron Emission Tomography (PET Scans);
   6) non-emergency surgery
   7) reconstructive surgery;
   8) TMJ surgery;
   9) transplants.

Call and obtain prior authorization for any services that are new or outside standard medical practice (and which may be excluded as experimental), or that are only covered under some circumstances (as described in Section 2) to assure coverage.
d. Obtain the in-network level of benefits (the highest level of benefits described in the current Schedule of Benefits) by:

1) obtaining covered medical services from a BCBSMT network provider listed on the BCBSMT web site for the employer’s Managed Care Option Plan or the “Blue Choice” plan -- see 1.1, 2 (In certain instances in-network benefits may be available for services provided by an out-of-network provider when an in-network provider is not available. Contact the health plan concerning network exceptions.); or

2) obtaining covered medical services for an emergency medical condition or obtaining covered facility/professional services for urgent care (care for an urgent medical condition) from any licensed provider. In the case of a medical emergency, BCBSMT MCO plan members are encouraged to obtain services from the closest appropriate provider. You will receive the in-network level of benefits for immediate treatment of an emergency medical condition by any eligible provider including an out-of-network provider. However, you will only receive the in-network level of benefits for any out-of-network follow up care (after the medical emergency has ended) if the above precertification requirements are met.

Non-emergency care received from a provider who is not a BCBSMT network provider will be covered at the out-of-network level of benefits (described in the current Schedule of Benefits). However note that the medical services identified in 2.1.3 are not available as an out-of-network benefit.

e. Determine if there are frequency, duration, or dollar limits on services you plan to receive so you can consider alternatives, if needed (see Section 2 and the current Schedule of Benefits).

f. If you obtain non-emergency services out of state or use an out-of-network provider in Montana, try to use a BCBS participating provider. BCBS participating providers have agreed to accept allowable fees. This will protect you against charges in excess of the health plan’s allowable fees. You are responsible for paying these charges in addition to any out-of-network deductible, coinsurance, or copayment.

To find BCBS participating providers in Montana go to the “Find a Doctor” page of BCBS’s web site and select the “Blue Cross Blue Shield of Montana” list. To find participating providers out of state go to the “Find a Doctor” page and click on “Health Care Anywhere.”

1.2 STEPS TO TAKE TO RECEIVE BENEFITS AND PAYMENT

1. Present your identification card to the physician, hospital, or other health care provider when you or any covered dependents receive services, and pay any required co-payments.

2. Make sure the provider has your current identification number and address. If you change your address, notify the employer at the number or location on the cover page.

3. Most providers will file a claim for you; however, you are responsible for making sure a claim has been filed. A CLAIM MUST BE FILED WITH THE HEALTH PLAN WITHIN TWELVE MONTHS OF THE DATE OF SERVICE TO RECEIVE BENEFITS. You may need to complete a standard claim form (which should be available from the provider) if you use a provider who is neither an in-network provider, nor a participating (BCBS member) provider.

4. Payment will automatically be sent directly to BCBSMT network providers and participating (BCBSMT member) providers who have agreed to accept allowable fees, as well as to other providers whose bills include an assignment of benefits from you. You will receive payment directly for services from other providers for which no assignment of benefits has been made. For both in-network and participating (BCBSMT member) providers, you will not be responsible for paying charges for covered medical services above allowable fees.

For out-of-state services from a provider who has a fee agreement with the BCBS plan of the area (the host plan), the BlueCard program allows you to take advantage of that agreement. Claims are sent by the provider to the host plan, which
electronically submits them to BCBSMT. BCBSMT determines what level of services is payable under your plan of benefits and sends this information back to the host plan. For a small negotiated fee, the host plan applies any discounts it has negotiated with the provider and pays the provider. If the agreement contains a hold harmless provision (making the provider a participating provider of the host plan), you will not be balanced billed for charges above allowable fees. See 1.1,f above to find out-of-state participating providers.

5. Respond to requests for information about accidents, pre-existing conditions, other insurance coverage, additional information for prior authorization or pre-certification or any other information requests from the health plan. Your claim will not be adjudicated until and unless the required information is received within the timeframe required by the health plan.

6. Monitor invoices from the provider and explanations of benefits from the health plan to make sure the health plan received and adjudicated a claim for services and that the provider received any payment due.

1.3 EXPLANATIONS OF BENEFITS (EOBs) & NOTIFICATION OF CLAIMS APPEAL RIGHTS

Check EOB’s from the health plan to determine if you have received the benefits described in this Managed Care Supplement and to determine what fees you owe the provider (deductible, copayments not paid at the time of service, coinsurance, charges for uncovered services, and charges in excess of allowable fees when using providers who are not in the MCO plan network.

If a claim is denied in whole or in part, the claimant will receive written notice of the adverse benefit determination. A claim Explanation of Benefits (EOB) will be provided by the health plan showing:

1. The reason the claim was denied;
2. Reference(s) to the specific MCO Plan provision(s) or rule(s) upon which the claims decision was based which resulted in the denial or partial denial;
3. Any additional information needed to perfect the claim and why such information is needed; and
4. An explanation of the claimant’s right to appeal the adverse benefit determination for a full and fair review.

If a claimant does not understand the reason for any adverse benefit determination, he or she should contact the health plan at the address or telephone number shown on the EOB form. See the Employer’s Summary Plan Document for claims appeals procedures.

1.4 SELF-AUDIT AWARD PROGRAM

To receive a self-audit reward of up to $1,000, check bills from your medical providers to make sure you have not been double billed for services or billed for services you haven’t received.

You can receive an award of 50% of identified over-charges up to $1,000 as follows:

a. The over-charges may not have already been detected by the health plan or reported by the provider.

b. The over-charges must be $50 or more, and

c. The over-charges must be within allowable fees for covered medical expenses.

To receive a self-audit award, take the following steps:

a. Notify the health plan of the error before it is detected by the plan or provider.

b. Contact the provider to verify the error and determine or work out a correct billing.

c. Have copies of the corrected billing sent to the health plan for verification, claims adjustment and calculation of the self-audit award.

b. treatment of an emergency medical condition or facility/professional services for urgent care (care of an urgent medical condition) by any provider.

You will be responsible for any deductible, copayment and coinsurance amounts, which the current Schedule of Benefits specifies for the in-network level of benefits. The emergency transportation must be medically necessary. Transportation is not covered if not medically necessary. Please see the current Schedule of Benefits for the ambulance transportation copayment.

2.3.1 EMERGENCY CARE

SPECIAL REQUIREMENT TO RECEIVE THE IN-NETWORK LEVEL OF BENEFITS FOR OUT-OF-NETWORK SERVICES

The in-network level of benefits is provided for out-of-network emergency services immediately required to diagnose and treat an emergency medical condition at the nearest appropriate medical facility.

If an emergency medical condition is determined to exist that requires hospital admission or any follow-up services, you must notify the health plan within 24 hours of (or the next working day after) the initial emergency care so the health plan can coordinate the subsequent follow-up care and assure continued in-network benefits. If you are incapable of calling or having a representative call the health plan within 24 hours (or on the next working day), you should contact the health plan as soon as medically possible. Once medical stabilization is achieved, BCBSMT may require transfer to a BCBSMT network hospital for the in-network level of benefits to continue.
