Flu and COVID Vaccine Appointments Available Now

[Make Your Appointment](#)

Appointments for the 2025 Influenza (flu) and COVID vaccine are open now and start on September 23. Make your appointment today!

Who Can Get a Flu or COVID vaccine?

- At the [Montana Health Center](#) or [Montana Health Center off-site event](#), flu vaccines are available for State Plan members the age of 4 or older **including** Medicare retirees; COVID vaccines are available for the age of 18 and older **except** Medicare retirees.
 - The Montana Health Centers do not offer the high-dose flu vaccine, so if you need that please plan to get your flu vaccine at another

location. [The State Plan's pharmacy administrator ,Navitus](#), can assist you with finding an in-network pharmacy for the high dose flu vaccine.

- At [One Health Clinics](#), both vaccines are available to State Plan members the age of 6 months and older **including** Medicare retirees.
 - Availability of vaccines at the One Health Clinics is variable, please call your One Health Clinic prior to your appointment.

Appointments are required if you would like a flu and/or COVID vaccination at Montana Health Centers, One Health Clinics, and off-site vaccine clinics (offered by the Montana Health Centers).

The seasonal influenza ("flu") vaccine and COVID vaccine often protect against more than one strain of influenza or COVID virus. They are different each year based on projections for illness-causing strains. For more information on vaccine safety, efficacy, or necessity contact your health care provider.
