

Healthy For Life!

1

How was activity
week?

2

Sometimes it's about the journey, not the destination.

Remember your driving force?

What do you really want?

Why are you doing this?

3

Remember why it's called **Healthy For Life...**

This is NOT a short-term diet. This is lifestyle change so that you can live a **progressively** healthier, fuller life. Only time makes the difference clear. Think of all the times you have lost weight in the past with a "quick diet." Has it worked? What do you **REALLY** want?

4

...because this is the start of a healthier life for you!

Do you think people are “naturally” healthy? Sure, some people are blessed by the gene gods. But HEALTHY people make choices just like you. They STAY healthy because they make the healthy choices more often. This is a SKILL, not a TALENT – one that takes maintenance.

Positive Thinking

- Your words become your thoughts. Your thoughts become your beliefs. Your beliefs become your reality.
